- XII. OTHER ACADEMIC COOPERATIVE AGREEMENTS

I. EXCHANGE PROGRAMS

One of the main purposes of the Division for International Academic Affairs is to promote, develop, organize, and establish formal agreements for cooperation and exchange with foreign universities. UC is deeply committed to offering students from around the world the opportunity to participate in graduate and undergraduate programs at UC, as well as to provide students the intellectual and cultural benefits of a study abroad experience. Programs are designed according to the needs of the foreign universities and the regulations of UC.

Due to this flexibility, in the past 18 years UC has created formal agreements with 280 universities from 41 countries, which has led to more than 10,500 international graduate and undergraduate students attending courses at the university.

In August 1994, UC started formal exchange programs with several institutions in order to offer graduate and undergraduate students the opportunity to study one semester in a foreign university. From 1994 to 2007, more than 3,500 students attended universities in the United States, Mexico, Canada, Europe, Asia, Australia, Japan and New Zealand.
